MAJOR SPOTLIGHT: SOCIOLOGY

Navigating college is difficult as it is, but having to figure out what to do with our life straight out of high school can be even more difficult. Luckily, CHASS offers 40+ majors that will peak your interest. One of the many majors that we offer is Sociology.

This major is incredibly flexible in the sense that, there is not just one single track that will lead you to a successful career. Here at UCR, we offer different tracks for the many specialties that sociology has. Some of the specialties include studying, social organization, social psychology, criminology and deviance, and many more. The great thing about sociology is that one can apply their degree to just about everything! Traditionally, most students go into

social work, but one can go into rehabilitation services, marketing, consumer research, urban planning, law enforcement, criminal justice and so much more. This major is among the most popular here at UCR for it's career flexibility and interest. If this has peaked your interest, take a sociology class, this major might be for you!

Our academic advisors are more than happy to help you learn what sociology can offer you! The sociology advisors are located at Watkins Hall 1141.

The function of sociology, as of every science, is to reveal that which is hidden— Pierre Bourdieu

IN FOCUS: CHASS PEER MENTORS

First year CHASS students living in Aberdeen-Inverness have the opportunity of meeting with peer mentors who are more than ready to assist students with major choice, class selection and anything academic related. For the 2016-2017 school year we have two CHASS Peer Mentors: Andrew Del Valle and Carmen Arredondo. Both mentors have experience working with CHASS students, in addition to having familiarity with important petitions and forms.
